Altho You Live In The Country

Miles from an electrical plant, you can have the best of lights, both in your house and barn by installing a Delco-Light plant. Delco-Light is a proven success, more than 60,000 farm homes have found it SAFE, practical, economical and a satisfactory light and power plant.

I spent last week at the Dayton Delco-Light factory, also attended their convention.

I have been appointed Delco Agent for Spencer, Chatham, Harrisville, Westfield and Lafayette, and would like to talk to YOU relative to installing a lighting plant in your home.
